

PROBATino®

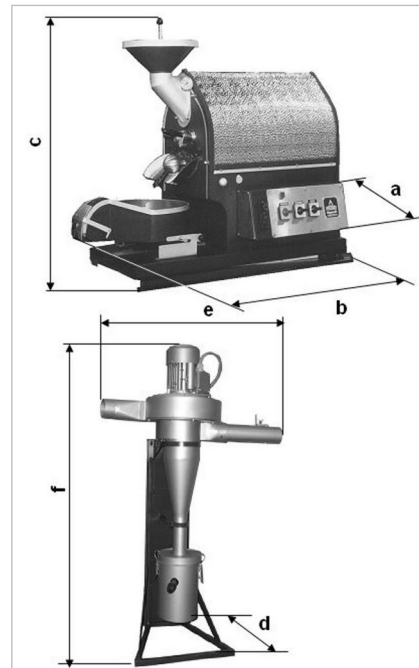

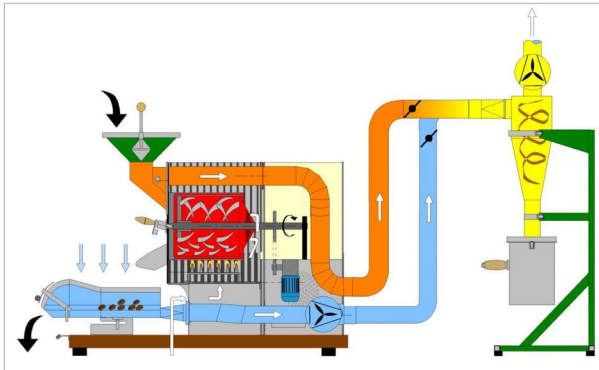

The PROBAT table roaster of the PROBATino® series offers your customers a freshly roasted coffee to individual blends and a very special shopping adventure. This roaster, built in classical design exhibits the following technical specifications:

- A non-perforated roasting cylinder with a special paddle mixer assures an optimal blending and excellent roasting result
- The roasting process can be easily controlled at all times through a sight flap, sampling spoon and thermometer
- A cooler with fan quickly cools the coffee down to the requested temperature
- Batch size 800-1200 g
- With an hourly output of approx. 5 kg
- Saving of energy
- Effective chaff separation

PROBATino®

Technical Data		
Batch size green coffee	kg	0.8 - 1.2
Frequency	Hz	50/60
Power supply	V	230/110
Roaster: Dimensions approx.	a x b x c (mm)	500 x 1200 x 900
Dimensions base plate approx.	L x B (mm)	970 x 400
Electrical nominal output	kW	0.24
Required energy per kg of green coffee	MJ	1.88
Gas connection	"	3/8
Weight	kg	115
Cyclone: Dimensions approx.	d x e x f (mm)	550 x 900 x 1250
Electrical nominal output	KW	0.37
Weight	kg	50
